Finally, a finish that wears as well as it looks. Provides diamond like clarity and brilliant gloss, along with extended wear properties never before available in one product. Clean for Health.

PREPARATION If stripping is necessary, use a high quality product and follow directions accordingly. If floor is in good condition and stripping is not necessary; sweep up excess dirt and dust and then clean with a good quality cleaner to remove dirt and oils. Follow with a thorough rinsing and allow to dry completely

FINISHING: Spread a liberal coat of finish evenly across the floor with a clean mop or applicator. Allow each coat to dry at least 1 hour before applying the next coat. Two or three coats are desired initially, depending on the condition of the floor and gloss desired.

MAINTENANCE: The floor may be maintained using a quality floor cleaner and damp mopping regularly. Spray buffing or mop-on restoring may also be done after sweeping up loose dirt and dust. Follow directions for each product accordingly.
