# DISCOVER AMERICA'S FINEST SUPER CONCENTRATE PROGRAM...

... a unique combination of top performing, highly economical concentrates...an all purpose cleaner, degreaser, glass cleaner and disinfectant cleaner...each product has been engineered to provide safe yet highly effective cleaning results. Our

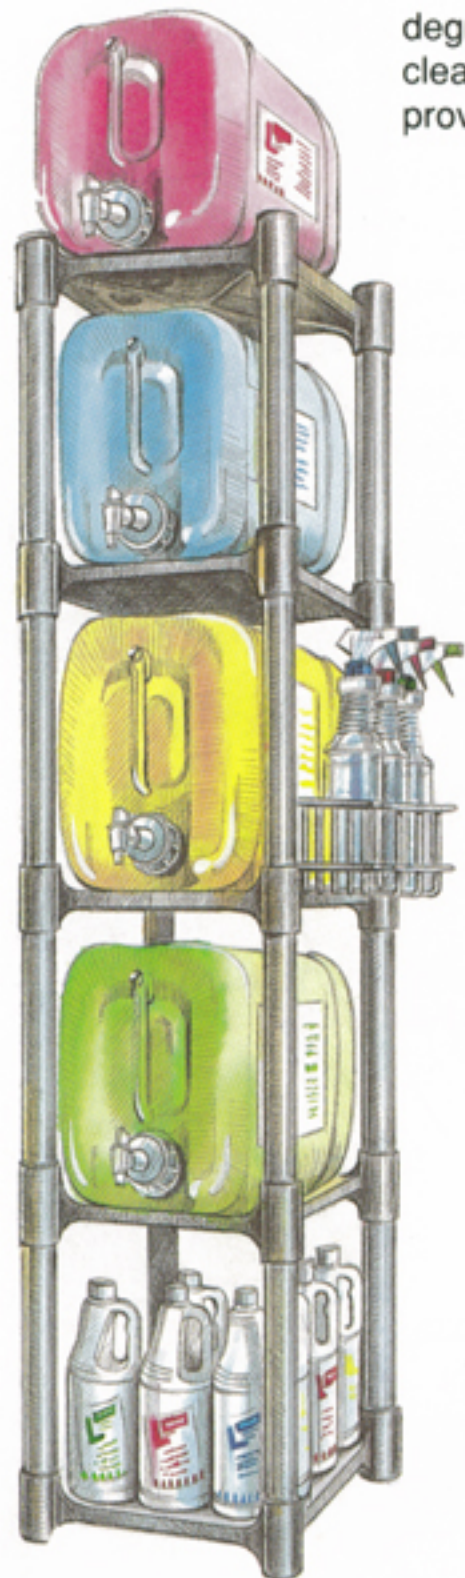

bio-degradable formulas offer superb economy in use and are designed specifically for institutional cleaning in restaurants, institutions, offices, schools, hotels, motels and other places of business. This program includes the following cleaners...

**ALL PURPOSE CLEANER...** contains a perfect surfactant blend to wet, penetrate, emulsify and suspend soil. Scientifically formulated to accomplish an unusually broad range of maintenance tasks... totally free of any harsh alkali, soap, ammonia or abrasives. Pleasantly scented.

**DEGREASER...**a fast acting, high performance degreaser designed for the toughest jobs. Combines a superb blend of multi-faceted, hard working surfactants with d-Limonene (A natural solvent extracted from orange peels). A water soluble, non-flammable, bio-degradable, highly efficient degreaser designed to easily and economically clean a large variety of industrial and commercial areas.

**GLASS & PLASTIC CLEANER...** a non-streaking, anti-static glass, plastic, and multi-surface cleaner designed specifically for use on windows, mirrors, glass, appliances and thermoplastic surfaces. Easily removes smudges, smears, finger prints, oil and grease from all hard and see-through surfaces.

**DISINFECTANT CLEANER...** a superb quaternary based bowl, bathroom and multi-purpose disinfectant cleaner with high fragrance levels that performs beautifully and leaves the area with a clean, pleasant aroma. A broad spectrum disinfectant, effective against a wide variety of gram-negative and gram-positive micro-organisms. Utilizes a superb blend of hard working surfactants for excellent results.

# BEAUTIFUL CUSTOM CABINET AVAILABLE...

...when fully loaded, this highly durable, water resistant tubular cabinet stores up to 20 gallons of our ready to use cleaners and other supplies. This cabinet, manufactured from special plastic resins, not only looks great, but is highly functional and reasonably priced. Special friction fit design snaps together in minutes without the need for nuts, bolts, or screws.

# **P**ROFESSIONAL...

... a very well orchestrated, color coordinated concentrate program... each product identified by a specific color. The label color for the concentrated product, five (5) gallon bulk storage container and the ready-to-use spray bottle match the product color, providing a very simple and easy way to implement this exciting new cleaning system.

# **E**CONOMICAL...

... any one quart of our special, super-concentrated cleaning products produces 20 quarts of the finest, most effective ready to use products available in today's market place.

# **S**ETS UP IN MINUTES...

...this simple, easy to use program sets up in just minutes. A highly professional cleaning system which helps eliminate potential mishaps by using an incorrect product. Simply pour one quart of concentrated cleaner into the pre-labeled color coordinated empty five (5) bulk storage container. Fill the balance of the bulk container with water and attach the special dispensing nozzle and cap. Shake bulk storage container vigorously and place unit in the custom cabinet. Fill the pre-labeled spray bottle with the proper product and attach sprayer.

# **I**NTRODUCTORY STARTER PACKS...

...we have developed exciting introductory starter packs which include six (6) quarts concentrate, six (6) spray bottles, six (6) sprayers, and one (1) bulk storage container with dispensing nozzle. Each container is professionally labeled and color coded.

# **M**EETS **O**SHA **G**UIDELINES...

... this program meets and exceeds OSHA guidelines insuring each container is labeled and identified properly with up-to-date information regarding use directions, safety pre-cautions and disposal.

# ADDITIONAL BENEFITS...

## Professional support literature...

Complete, informative, individual product support literature is available for each product. This literature provides valuable information regarding product specifications, features, benefits, usage, and safety. This literature is on hand and available upon request.

## OSHA MSDS sheets on file...

OSHA Material Safety Data Sheets are on file and available upon request. Our MSDS sheets include all pertinent information including composition, usage, safety, precautionary and hazardous information if required. In compliance with OSHA Regulations, we have provided an OSHA MSDS form with each product shipped, although additional MSDS forms are available.

## Family style package...

We have systematically designed and organized our chemical cleaners around particular label designs for easy identification. Our professional packaging helps eliminate potential problems through the unintended use of a product on an improper surface. Train your custodial staff to recognize each product and its contents by our easy label identification.
